

## **GUIDELINE FOR FINAL CAMERA READY PAPER SUBMISSION AND REGISTRATION FOR AUTHORS**

1. Download IEEE conference template (Microsoft word/ Latex) from <https://www.ieee.org/conferences/publishing/templates.html>
2. Prepare your paper as per the format and guideline. Include authors names and affiliation in the final camera ready paper. Do not include any header, footer or page number in the manuscript. The IEEE copyright string at the bottom of 1<sup>st</sup> page (XXX-X-XXXX-XXXX-X/XX/\$XX.00 ©20XX IEEE) should also be removed.
3. Revise the paper as per the comments of the reviewers and strictly adhere to the IEEE format.
4. Submit the IEEE PDF eXpress compliant manuscript (in pdf) in EDAS under “Final Camera Ready Manuscript” field and make sure the paper title, authors name etc. in the manuscript match the names as provided in EDAS.
5. You can either create your manuscript pdf by your own pdf creator tool or use IEEE PDF Express Tool. In the former case, make sure the PDF should not have any bookmarks, form fields, links (URLs), PDF annotation, not embedded fonts, stamped with copyright or header, scanned image, encrypted file and print-only file. Once your pdf file is created you have to check for compatibility in IEEE PDF eXpress site. Go to <https://ieee-pdf-express.org/Account/Login> and create your account by providing conference ID as ‘56052X’ and your email id. After logging in and providing your basic information go to Dashbord. In Dashboard ‘create new title’ and upload your PDF. After successful checking you can download your checked PDF. Also the file will be mailed to your email address.  
You can directly convert your doc file to PDF file in IEEE PDF eXpress site by uploading the doc file in ‘new title’ form as described above.
6. Transfer your IEEE Electronic Copyright Form (ECF) in EDAS. Before uploading your paper, EDAS will direct you to IEEE eCF site. Provide all the necessary information and complete the form. Then submit it. Currently the ecopyright submission link is being generated. Please submit it in EDAS as soon as it is available.
7. Register your paper in ICORT-23 site <https://icort.in> with full payment.
8. Session information and presentation guidelines will be shared subsequently. Please visit <https://icort.in> for regular updates.
